Diagnostic Trouble Codes

Here is the list of DTC's. This is a HUGE file (48 pages) so it's probably easiest to use your scroll function to locate the code you're looking for. The P0000 to P1000 are all EOBD Codes.

First digit structure is as follows:

• Pxxxx for powertrain
• Bxxxx for body
• Cxxxx for chassis
• Uxxxx for future systems

Second digit structure is:

• P0xxx Government required codes
• P1xxx Manufacturer codes for additional emission system function; not required but reported to the government

Third digit structure is:

• Px1xx measurement of air and fuel
• Px2xx measurement of air and fuel
• Px3xx ignition system
• Px4xx additional emission control
• Px5xx speed and idle regulation
• Px6xx computer and output signals
• Px7xx transmission
• Px8xx transmission
• Px9xx control modules, input and output signals

The fourth and fifth digits designate the individual components and systems.
